DEFINE E F F I N E

ATHLETIC

I have been involved in sports for as long as I possibly could. I play volleyball, basketball, run track and, in the summer time, I play softball. Besides those sports, I am involved in chorus and am a member of the Redbird staff. In my spare time, I love to be outdoors. Hunting and riding horses are two of my favorite activities. My future plans are to attend MSU-Bottineau and play volleyball and basketball. I am unsure of what I want to go in to, so I will take my generals my first two years. After that, hopefully, I will have decided what I want to major in. After college, I hope to get married and eventually have kids.

Amber Smith

PENSIVE

In school, I am involved in many activities: volleyball, Student Council, NHS and Casper/SADD. My senior year, I decided to help with the wrestling team by being the statistician. Outside of school, I love spending time with my family and friends. During the summer, I spend most of my time at the lake jet skiing. In the winter, my family and I like to get away to West Yellowstone and go snowmobiling. In 10 years, I hope to see myself working as a dental hygienist in North Dakota. I originally wanted to be an orthodontist, but, after a lot of time and thought, I decided I would try dental hygiene first. After I become a dental hygienist, I'm going to see if I want to go back to school to become an orthodontist. Along with starting my career, I hope to be starting my life with my wonderful family.

Rachelle Hildenbrand

DEVOTED

I love life. I love smiling. I love laughing and making people laugh. I love life to the fullest. I love the outdoors. I love the open country. I love animals, and I love showing cattle. I love being wild and taking dares. I love working and being positive. But most of all, I love being with friends and family. I love agriculture, and I love helping people. What can I say? I'm an old-fashioned country gal; my life will be revolving around the agricultural community and my need to please people. I plan to graduate college with degrees in animal science and agricultural economics. I want to become an agricultural finance officer, to help others financially succeed in their farming and ranching needs. In ten years, I will be married, live on my own piece of land in Montana and have a house full of children.

Kekey Hole

VIVACIOUS

I enjoy singing and dancing. I love to spend time with family (when I get the chance). Making people laugh is one of my specialties. I don't think you'll ever find me without a smile on my face.

Basketball, basketball, basketball. I LOVE me some basketball. I'm always thankful for whatever, and I don't take it for granted. I have good fun, but when it's time to be serious, I get to it, and I go after what I want.

My future plan is to attend college somewhere in state to pursue a nursing career. I've always had a passion to take care of people and nursing is the perfect match. I don't think I could ever want to do anything else, besides being a mother. In 10 years, I see myself with a family, a career and raising my children to be successful.

Kellixus Hinton

OPTIMIST

I love every part of life! Some of my favorite areas of life include acting, singing, shopping, laughing, talking and smiling. I was involved in basketball, volleyball, Cardettes, SADD, NHS and church activities. I love coffee! I enjoy waitressing. Writing makes me happy. I own entirely too much pink. I hate being bored, so I take every opportunity to try something new. I love to travel! I like to be a leader, a friend, a dreamer, a believer, an activist and just myself!

I will be majoring in journalism and mass communications. I will most likely go to college at a public university in the South or East coast area. After graduating college, I will most likely get a job in television broadcasting, starting out as a reporter and working towards being an anchor. I will probably get married early on in college, but I won't have children until my late 20s. I want to have three children. During my lifetime, I would like to model through college, waitress for most of my younger years and write at least one novel. You should all read it some day!

Bridget Rebow

ENERGETIC

I love reading and spending time with friends, family and pets. I was involved in volleyball as the student manager, cheerleading and drama.

I'm attending Northern State University where I plan to obtain a degree in business management. I'm not sure where I'll be in ten years.

Ashley Scheum

RANDOM

I like hunting and driving around. I like to be outside. I enjoy working, believe it or not. If I'm not working, I'm bored.

I am attending Mitchell Technical Institute in the Fall of 2009. After college, and after I earn my Journeyman's degree, I plan to move back to the Ellendale area.

Logan Redmond

PATRIOT

I am a very laid back kind of guy. I like hanging out and watching TV. The only sport I play is football. The youngsters on the football team call me Grandpa Janks. My favorite professional football team is the Patriots. I like to hunt and fish. I mainly hunt deer and pheasants.

I am going to serve my country. I joined the Marines under Security Forces. When/If I retire from the Marines, I plan on joining a SWAT team. After that, I will see where life takes me.

Justin Janke

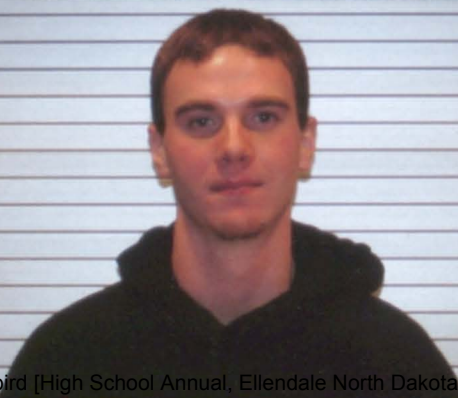

SOLID

I like cars, motorcycles, doing naughty things, money and most dangerous activities. I'm not involved in anything because I don't want to be, and I'm handicapped. Although, I pretty much do whatever I want.

I plan to go to a college and study in the field of Engineering. North Dakota State University is a top choice. I then plan on getting hired for a long term job that I will enjoy. After, I hope to start a family. This will hopefully be in a surrounding state. That's what I have in my mind so far.

Alex Kendall

MELLOW

I like to take it easy and have fun. I try not to let what other people do or say affect how I feel. I'm usually pretty quiet. My best friend is Kyle Kee and has been since 1st grade, even though I have moved away and back a couple times. I enjoy watching movies, playing video games and hanging out.

I plan on going to a college, which one and what for I'm still unsure of, after high school. I would like to continue living in North Dakota, if the career I choose allows it. In ten years, I see myself living in a home I recently purchased and possibly having a girlfriend or wife.

Colton Knop

RELAXED

I like to work in my free time. I enjoy hanging out with my friends and watching my new nephew grow up. I love to work on derby cars with my brother Eric. We have a very close relationship with each other, which I think is a good thing to have. I enjoy working and making money to put into my car.

In my future, I plan to go to college in Watertown for two years to graduate in Autobody. Then go to Mobile Dynamics for their two month program to graduate and get certified into car audio installation business. In ten years, I hope to see myself as an entrepreneur in the car audio business.

Jesse Duke

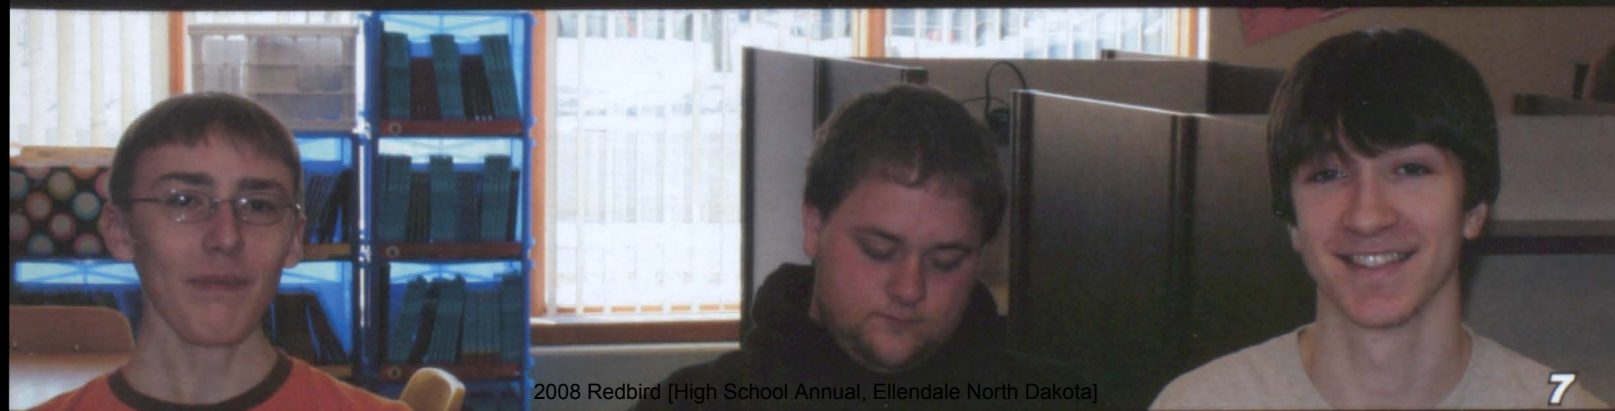

DEPENDABLE

I love English and computers. If there's a way to combine the two, that's me. I like reading, but I prefer the grammar aspect of English. I love writing, especially expressive poetry. However, my life rotates around my computer. It doesn't matter if it's net browsing, gaming, honing my Photoshop skills, listening to music or chatting with friends - I would be lost without my computer.

I'm going to attend NSU and major in English. I plan on spending my life teaching the joys of English to high school students. In ten years, I surely hope to have found that someone special...but only time will tell.

John

DEAFENING

I love music, writing, sports and religion. I'm very outspoken about my faith in God - and I convey that through my writing and music. I'm in a metal band where I have the freedom to write Christian and optimistic lyrics, I'm thankful for that - long live The Unrest! I feel that nothing in life is a waste of time. Every chance...every breath is a gift and awesome opportunity to live above and beyond the world's standard. Love, hope and persistence. God Bless!

In 10 years I will have finished my college training, and I will be teaching English in a small town. The final twist, at least for my hopeful children...will be that Daddy is still in a metal band performing on the weekends.

Peter Kronberg

KNOWING

I enjoy hunting, fishing and bowfishing (which is awesome). I love playing hockey in PE class and will be drafted into the NHL. I spend most of my time not being serious at all.

I'm going to the University of Idaho to get a degree in electrical and mechanical engineering. I'm getting a minor in Spanish so I can travel the world and work in many countries.

OUTGOING

I am an outgoing person because I have participated in a lot of events. I have played football, basketball and golf. I have been involved in Casper, as well. I enjoy playing sports, and I enjoy hanging out with my friends on the weekend. I like to meet new people when I go places.

My future plans are to attend Montana State University. There I will pursue a degree in Business.

MOTIVATED

I am a very motivated person who doesn't get discouraged easily. I love playing basketball and hanging out with my friends. I am actively involved in my church's youth group, worship team and drama team. I am a strong, God-fearing man who loves life.

In the future, I am going to college to hopefully become a physical therapist. I want to live in a big city in California. In 10 years, I see myself being married with kids and possibly being a youth group leader.

Nick Thight

SMOOTH

I love all kinds of sports. I am in football and track in school and in the summer I play Legion ball. I like hanging out with friends and taking "BP" in my basement with Sean. I like driving around with Sean and taking random trips to Aberdeen for no reason.

I plan on playing baseball at NDSU and majoring in physical therapy. I want to get a job and move down South after college.

Joe Felo

DRIVEN

I think what makes me who I am is my drive. Whether it is towards athletics, school or life in general. I try to never be content and always be moving forward. Except on weekends, which is when I try to be as lazy as possible.

After High School, I plan to attend college in either Minnesota, Iowa or North Dakota. At college I will study either pre-dentistry or law. In ten years, I see myself just getting out of college and either opening my own business as an orthodontist or working as a lawyer.

Dysfunctional

The Junior class is described as dysfunctional. Our class has many different types of people in it, which doesn't always lead to friendships, but we still always have fun. Our class is many different things, including fun, loud, rude, competitive, straight forward, somewhat smart, and crazy.

Front: Michael Schilling, Ty Bommersbach (NP: Adam Turnbull)

Kinky

The class of 2010 is a group of nonconforming personality, attitude, talent and diversity-coiled into a tight spring. We define our class as kinky because we all have kinks in our relationships with one another; although we all get along at some points, there are the days we don't. Our class is made up of class clowns, drama queens, athletes and brains. We always have a joke, always have a blast, but never want to look back with regret. Our class is filled with kinky people and though we don't all get along, we work together to make a year of memories that will last forever.

Stupendous

Our class is stupendous because we possess most of the traits of Ellendale Cardinals, and because we are energetic and are always supporting our athletic teams whether we are winning or losing. We are also fun and love to enjoy life. Our class is stupendous because we are unique and creative individuals. These are all good traits, but we are stupendous mostly because we created our own human pyramid. Go Class of 2012!

The Cardinal football team stands with pride during the National Anthem, sung by Homecoming Queen Allyssa Smith and Junior Kayce Olson.

VARSITY

Touch-down /tuhch'doun'/ Abbr. TD /noun/ An act of carrying, receiving, or gaining possession of the ball across the opponent's goal line for a score of six points.

Senior captain, Pete Kronberg dashes up the sideline in the game against Sargent Central.

Senior, Devin Lenhoff #72 assists in creaming the South Border quarterback.

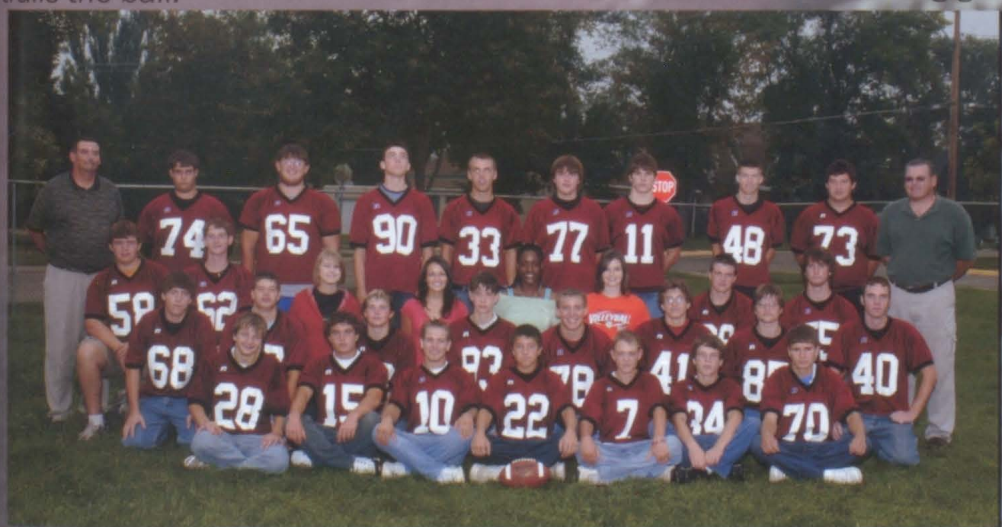

Senior Justin Janke takes down the Hankinson quarterback for the sack.

Junior, Nate Arnold #11 kicks off the homecoming game as Kyle Ketterling trails the ball.

Senior, John Huber quenches his thirst while Pete Kronberg watches the JV finish the homecoming game.

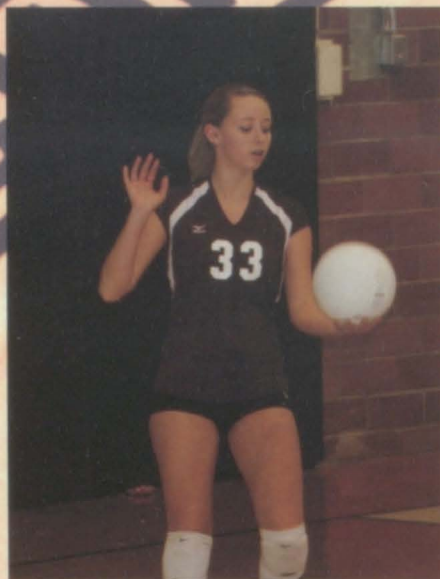

"Just like our record, this was a season of ups and downs", describes Coach Ulmer. The season began with a strong victory against BCN. However, during the first three minutes of the game, senior Justin Marlow injured his neck and was out for the remainder of the year. During the Homecoming pep rally, senior John Huber expressed his dream for a unified cheer. His dream came true as the crowd made a loud "Ahh-whooh" as Nate Arnold kicked off, starting the game strong for a victory! Our seniors have lead us through a great year and we are sad to say good-bye to Sean Blumhardt, Pete Kronberg, John Huber, Joey Peldo, Justin Marlow, Justin Janke, and Devin Lenhoff.

Music is sometimes defined as the art of arranging sounds in time so as to produce a continuous, unified, and evocative composition, as through melody, harmony, and rhythm. This year many students can say they are creative, artistic and very musically talented. EHS students got to show their talents and vocal abilities to their community during several concerts and contests in which they had a chance to voice their individuality. Many students excelled at contest and shocked everyone at how well they sang. We at Ellendale High School are proud of our musically talented students!
